RG104 E-1 Box 173

Treasury Department,

BUREAU OF THE MINT,

Washington, D. C., November 5, 1891.

The Superintendent, U. S. Mint,

Philadelphia, Pa.

Sir:

You are authorized to proceed to Waterbury, Connecticut, and take with you Mr. Steel, the coiner of the mint, for the purpose of examining a plan for using crude oil with the "Brown Annealing Furnaces" to be introduced in the mint.

The necessary expenses of yourself and Mr. Steel will be paid from your contingent appropriation.

Very respectfully,

E. O. Leech

Director.

I doubt the propriety of using oil. If it is the Richelieu works, the oil exploded recently. I certainly would not consent to have oil used in the Phila. Mint as a fuel. E.O.L.
